

**LARGE**

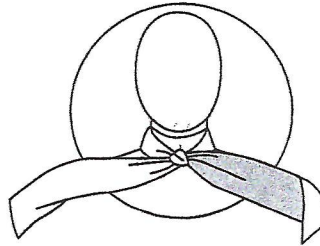

**SEVEN STEPS TO TIE YOUR STOCK**

1) Place the stock around the neck by fastening the buttonhole to the shirt button at the front. Cross the ties at the back of the neck, bring one tie through the stock slot, bring both ties to the front.

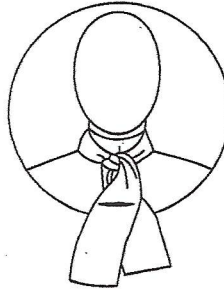

4) Bring the other tie over and through the fold at the right.

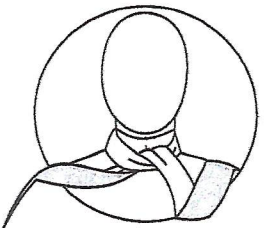

5) Pull both ties upwards.

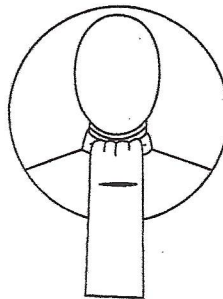

2) Make a single right-over-left knot close to the neck. Place one tie on the right shoulder and the other on the chest. Secure the knot with a safety pin to avoid any movement.

6) Adjust both ties so the head of the second knot shows the base of the triangle formed and secure with a stock pin through both ends of the stock and on the shirt.

3) Place the tie on the chest over the left shoulder as shown.

7) To achieve this alternative style, pull ties tighter than indicated in diagram 5 then fold down over the knot and smooth the stock out.
